What is Black Flag Sydney?

Black Flag Sydney is a collective of anarchist-communist workers who organise mainly on unceded Gadigal land.

Our ultimate goal is to build a society free of states, classes and currency, in order to achieve collective self-emancipation and universal freedom for all. Direct action is our method and worker self-management is our vision for today and the future.

We aim not only to dismantle systems of capitalist exploitation, but to build the capacity for people to freely and truly self-manage their workplaces, communities, and lives.
